RELEVANT EXPERIENCE

BOFA LLC – S CORP.

January 2024 – Present

FOUNDER

Estero, FL

- Directed the end-to-end system design, development, and launch of Poke Haven, an online social game that scaled to attract 1.6+ million unique plays and a sustained daily active user base.
- Built and led a multidisciplinary team of developers, artists, and community managers to deliver consistent, high-quality updates.
- Managed feature and security integration, including the implementation of large monthly content updates to sustain prolonged community interest.
 - Nominee for Best Use of Voice & Audio (ROBLOX Innovation Awards 2024)

Computer Design Systems

November 2019 – December 2024

Operator

Estero, FL

- Design, integrate, procure, and build personal desktop computers in accordance with customer requirements.
- Match & install anti-malware software and custom procedures to ensure cyber secure operation.
- Provide customer training and troubleshooting assistance with operational inquiries.

PROJECTS – Stay Well Studios' Training Class System | Caspio

April 2025

- Developed and implemented a role-based scheduling and management system for Stay Well Studios using Caspio, enabling clients, trainers, and owners to register, manage, and track training sessions efficiently through a user-friendly web interface.
- Optimized operational workflows by automating class scheduling and configuration and improving overall business efficiency and client satisfaction.
- Applied UX principles based on Nielsen's usability heuristics, designing intuitive navigation and real-time feedback to enhance user interaction across all access levels (Client, Trainer, Owner).
